- Built culturally inclusive teams that collaborated well, leading to high performing productivity.

CVS Health Inc., Burlington, MA August 2018-October 2023

Scrum Master - Senior Manager, Agile Practice Management

- Senior Scrum Master to back-end teams and front-end development teams that supported multiple applications relating to Customer Account Management and Customer Profile Management. The back-end teams primarily did API development work while the front-ends teams developed applications for Desktop, Android and iOS mobile platforms in addition to User Interface design.
- Served as the liaison between the technical software development teams and the non-technical product managers and product owners.

- Coached the product owners to clearly articulate the technical requirements for product features and user stories to ensure development of readiness.
- Coached the Scrum Teams on Scrum methodology and guided them to adhere to Agile best practices as directed by the Center of Agile Excellence.
- Supported multiple Product Owners during Program Increment Planning and Agile Release Train Planning.
- Actively worked to promote a safe and fun team culture that encouraged diversity and inclusion while enabling candid technical collaborations amongst team members.
- Helped the teams manage risks and dependencies, escalated and tracked impediments.
- Collaborated with Product Owners to ensure that the Product Backlog was groomed and prioritized for a minimum of two development cycles in advance.
- Facilitated collaboration and communication across multiple teams and business stakeholders on the Agile Release Train.
- Tracked the execution of Features over multiple Sprints and forecasted completion dates based on the team's velocity.
- Measured team performance monitored progress and reported on key Scrum KPIs.
- Facilitated Spring Planning, Daily Standups & Retrospectives, Sprint Demo sessions and invited Stakeholder inputs.
- Helped the team to identify opportunities for improvement via Sprint Retrospectives and tracked via an improvement User Story during each Sprint.
- Helped the team to draft a Team Working Agreement and reviewed it with the team at the end of every Sprint to identify updates to the working agreement.
- Created and published reports at the end of every Sprint cycle to showcase the team's achievements to stakeholders.

Wolters Kluwer Inc., Waltham, MA

November 2016-August 2018

Senior Scrum Master – IT Project Manager

- Led Agile behavioral change by facilitating all Scrum ceremonies such as Iteration Planning, Daily Standup, Backlog Refinement and Retrospectives.
- Identified impediments and worked to create effective strategies to overcome them.
- Facilitated conflict resolution discussions to achieve productive outcomes.
- Partnered with Agile Project Managers across the organization to align on driving the intended agile transformation goals.
- Mentored and coached teams and product management on agile methodologies.
- Partnered with Product Management to assure adherence to Program and Product Roadmaps.
- Worked with the Product Owners and Engineers to deliver high value initiatives that aligned with technology strategy and delivered meaningful value to business partners.
- Championed techniques that build execution discipline and accountability while facilitating all Scrum ceremonies.
- Guided and coached the teams on how to use Agile/Scrum values and practices to achieve business outcomes.
- Assessed the Agile/Scrum maturity of the team and helped identify areas where coaching may be needed to foster improvement.
- Educated team about Scrum and Lean-Agile approaches to increase their understanding and help them apply it in their specific context.
- Embodied servant leadership to model the behavior.
